Percent satisfied with school-home relations	76.5%	88.6%	N/A

*Only students at the highest middle school grade level at this school and their parents were included.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Science Technology Engineering Mathematics Magnet School (STEM-MS) has been opened for four years in Orangeburg County Consolidated School District Three. We are proud of our students and the involvement of our parents. Our teachers have motivated our students to master the skills in all academic areas while enhancing their morality through social and emotional development. We have strived to promote an environment that is conducive to learning. We have aimed to meet the needs of everyone.

The success of our students academically is cultivated on the foundation of a well-defined curriculum. We are proud to showcase what each student has to offer and what they have developed over the year. Some of the school highlights include students being recognized as grade level winners at the district science fair and competing at the regional science fair. Other awards and recognitions received by STEM-MS students are All State Band, Region Band, Junior BETA Club and FBLA Conventions, the Orangeburg-Calhoun Consortium for the Arts Summer Program, and the Daughters of the American Revolution short story and poetry contest. Some of our students participated in service learning projects and some students participated in job-shadowing.

As we continue to strive for academic excellence at STEM-MS, the administrators and faculty will continue to grow through professional development to meet the needs of the students. We will be able to facilitate learning as we continue to enhance our knowledge of current trends and district initiatives such as literacy development. We will also continue to focus on developing our understanding of the South Carolina Curriculum Standards to improve instruction.

STEM-MS is committed to making a difference in the lives of the students it serves. The support of the parents and the community has helped the school provide a quality instructional program through a rigorous investigative curriculum. We are proud to increase the technology capabilities of the school thus giving our students the necessary tools to prepare them to become positive future leaders.

Loretta R. Gadson-Washington, Principal
Cathy Huger, SIC Chair
